DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-6 and 9 are, drawn to a cutting tool having a sub-base and a parallel ruler, classified in class 30, subclass 286.

Group II. Claims 7-8 and 10 are, drawn to a cutting tool having means for preventing a tilted body from projecting laterally outward, classified in class 30, subclass 320.

Group III. Claims 11-22 are, drawn to a cutting tool having a sub-base, a parallel ruler, and means for preventing a tilted body from projecting laterally outward, classified in class 30, subclass 371.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group III and groups I and II are related as combination and subcombination. Inventions in this relationship are distinct if there is evidence that the combination does not rely on the subcombination for patentability. See MPEP 806.05 (c), example 3. For example, group II is evidence that the combination of group III does not rely on the sub-base and parallel ruler of group I for patentability, and conversely, group I is evidence that the combination of group III does not rely on the means for preventing a tilted body from projecting laterally outward of group II for patentability.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and

because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Choi whose telephone number is 571-272-4504. The examiner can normally be reached on Monday-Friday 9:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on 571-272-4514. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
